WORK EXPERIENCE

Full Stack Developer Intern

Phyniks Dreamlabs LLP.

09/2025 — *Bangalore, India*

Rackets & Returns

- Architected a scalable backend with **NestJS** and a performant, SSR frontend with **Next.js** for the **Rackets & Returns** project. Engineered the data layer using **PostgreSQL** on **Supabase**, leveraging its real-time features and auth for a full-stack solution. Integrated end-to-end functionality to ensure a seamless and efficient user experience.

SuperAdmin DashBoard

- Architected a scalable backend with **NestJS** and a performant, SSR frontend with **Next.js** for the **SuperAdmin DashBoard** project. Engineered the data layer using **MongoDB** , implemented **Redis Caching** leveraging its real-time features and auth for a full-stack solution. Integrated end-to-end functionality to ensure a seamless and efficient user experience.

EDUCATION

Bachelor of Computer Science

Acharya Institute of Technology

10/2022 - Present — *Bangalore , Karnataka*

PERSONAL PROJECTS

STORAGE-MANAGEMENT

Next.js + Appwrite

- Engineered full-stack storage solution using **Next.js App** Router + **Appwrite** for secure file management and real-time collaboration. **Added Debouncer**
  - Implemented Tailwind-responsive UI with drag-drop uploads, reducing bundle size **by 40%** via code-splitting.

https://picture-site.vercel.app

BLOG PLATFORM

- Built production ready blog with **React** , **Redis caching** (2x performance) and **RabbitMQ** async queues for scalable notification
- Designed microservices architecture wit role-based admin dashboard and SSr/SSG optimization

- Containerizes with **Docker**, deployed on **AWS EC2** with **GCP integration** for zero-downtime production scaling
